

International School Bangkok

Information about COVID-19 (Communication 26)

Dear ISB Community,

Update on cases at ISB

- Regretfully, we learned today that the mother of the PK student, whose husband was diagnosed with COVID-19 (School Communication - 23), has also tested positive for COVID-19. We wish mother and father a speedy and full recovery.
- The PK student was also tested and fortunately **tested negative** for COVID-19.
- The family members of the parent with grade 1 and grade 4 children (School Communication-25) were tested and, thankfully, they all **tested negative**.
- Three of our four cases are reportedly linked to boxing stadiums downtown.

There are currently no further reported cases of COVID-19 within our community and **no cases of students** reported.

I know we are all thinking of our ISB families with loved ones in hospital and are sending our very best wishes.

School Reopening

A government spokesperson announced today that a proposal will be made to the Cabinet tomorrow to close universities and international schools. We are watching this very carefully and will share details with you when we know them.

Questions answered by Administrators

Thank you to the many people who submitted questions for the ISB Administrators. We will be answering these questions through video and will release this on Wednesday. We have delayed this by one day as we await the announcement from the government tomorrow. Questions can continue to be submitted [here](#).

Reminders

Continue to practice [good hygiene and precautionary measures](#). Please be reminded to report to the school immediately if anyone in your household tests positive for COVID-19.

Travel

As you make summer travel plans, please be aware that if the current Ministry of Education directive remains unchanged, many of us will need to return to Thailand at least 14 days before school starts to complete self quarantine requirements. However, at this stage, we cannot predict the local and global situations so we suggest booking flexible tickets.

International School Bangkok

Our Caring Community

We are all concerned for our loved ones in Bangkok and around the globe. In this time of uncertainty and daily change, it is important for us to continue to practice self-care, to care for each other and to stay connected to one another through whatever means we can. Please remember that you can reach out to our school counselors and that we are all here to support you and your family.

Kind regards,

Andy
